

Create Jenkins User

1

Go To Dashboard

The screenshot shows the Jenkins Dashboard interface. At the top is a black header with the Jenkins logo on the left and a search bar on the right labeled "Search (CTRL+K)". Below the header is a light gray bar with the text "Dashboard >". The main content area is white and divided into two columns. The left column contains a sidebar with five menu items: "New Item" (with a plus icon), "People" (with a person icon), "Build History" (with a document icon), "Manage Jenkins" (with a gear icon), and "My Views" (with a square icon). Below the sidebar is a section titled "Build Queue" with a dropdown arrow, containing the text "No builds in the queue." and a table with two empty rows. The right column contains a large "Welcome to Jenkins!" heading, followed by a paragraph: "This page is where your Jenkins jobs will be displayed. To build or start building a software project." Below this is a section titled "Start building your software project" with a "Create a job" button. At the bottom of the right column is a section titled "Set up a distributed build".

Create a job

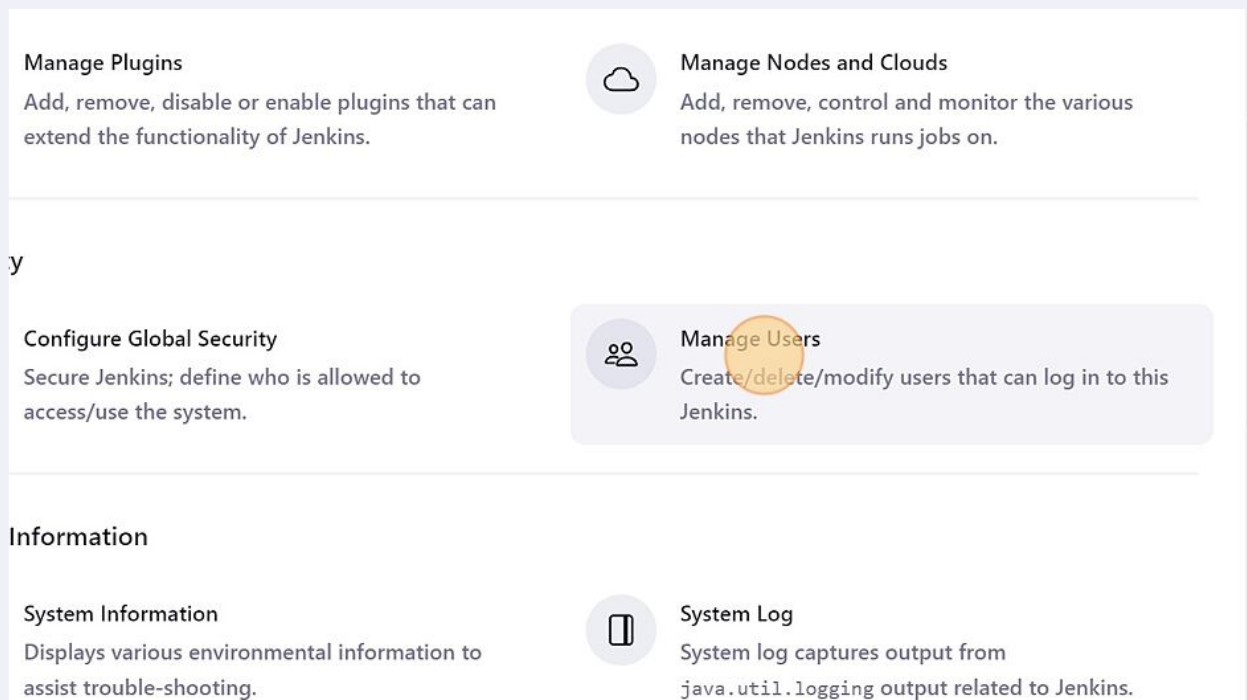

Set up a distributed build

2 Click "Manage Jenkins"

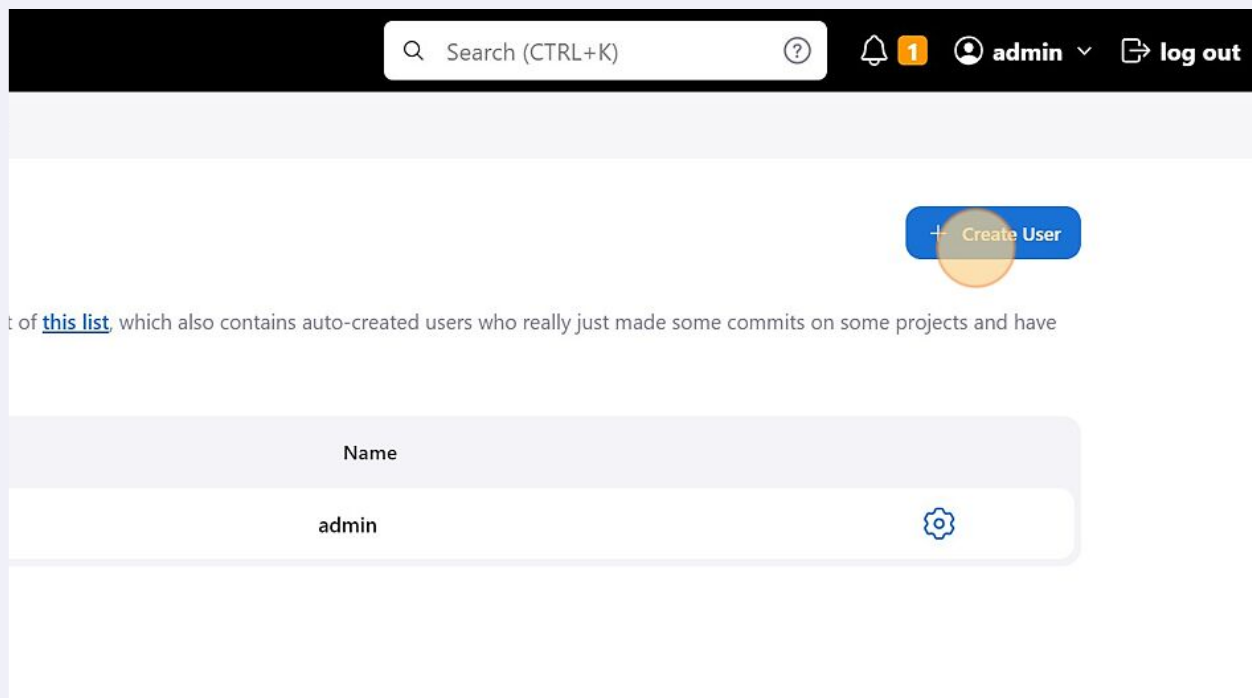

The screenshot shows the Jenkins Dashboard. On the left sidebar, there is a list of navigation items: '+ New Item', 'People', 'Build History', 'Manage Jenkins' (highlighted with an orange circle), and 'My Views'. Below this list are two expandable sections: 'Build Queue' (showing 'No builds in the queue.') and 'Build Executor Status'. The main content area on the right has a heading 'Welcome to Jenkins!' followed by a paragraph: 'This page is where your Jenkins jobs will be displayed. To build or start building a software project.' Below this is a section 'Start building your software project' with a 'Create a job' button, and another section 'Set up a distributed build'.

3 Click "Manage Users"

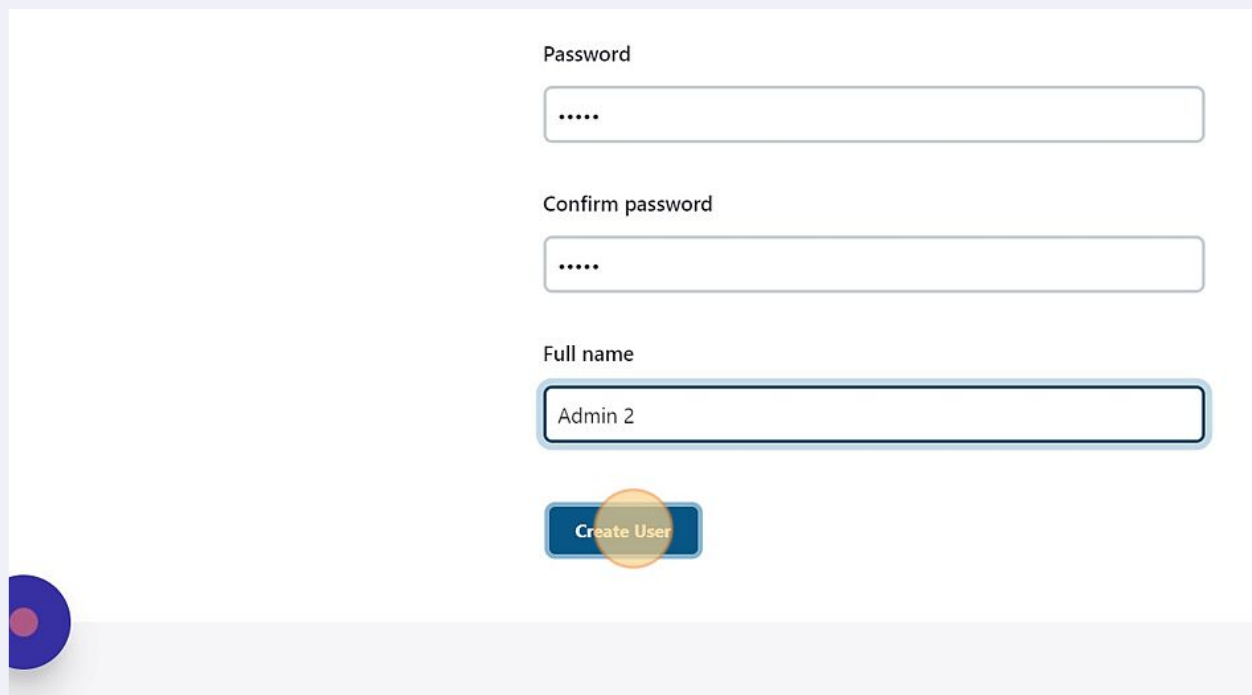

The screenshot shows the 'Manage Jenkins' page. It is divided into several sections. The top section contains 'Manage Plugins' (Add, remove, disable or enable plugins that can extend the functionality of Jenkins.) and 'Manage Nodes and Clouds' (Add, remove, control and monitor the various nodes that Jenkins runs jobs on.). Below this is a section 'Configure Global Security' (Secure Jenkins; define who is allowed to access/use the system.). The 'Manage Users' option is highlighted with an orange circle. It includes the text 'Create/delete/modify users that can log in to this Jenkins.' The bottom section is titled 'Information' and contains 'System Information' (Displays various environmental information to assist trouble-shooting.) and 'System Log' (System log captures output from java.util.logging output related to Jenkins.).

4 Click "Create User"

The screenshot shows a web application header with a search bar, a notification bell with '1', a user profile for 'admin', and a 'log out' link. Below the header, a blue button with a plus icon and the text 'Create User' is highlighted with an orange circle. Below this button, there is a text snippet: 't of [this list](#), which also contains auto-created users who really just made some commits on some projects and have'. At the bottom, a table with the header 'Name' contains one row with the value 'admin' and a gear icon to its right.

5 Add required details and Click "Create User"

The screenshot shows a user creation form. It has three input fields: 'Password' with masked dots, 'Confirm password' with masked dots, and 'Full name' with the text 'Admin 2'. The 'Full name' field is highlighted with a blue border. Below the fields is a blue button with the text 'Create User', which is highlighted with an orange circle. A blue circular icon is visible in the bottom left corner of the form area.
